My mission in life is not merely to survive, but to thrive; and
to do so with some passion, some compassion, some humor,

Foreword

New year, New Avatar for 2023. Have you set your new year's goals. Does that include going back to the same-old gym again? Do you want to get back to healthy eating? Or try the traditional one- laughter is the best medicine?

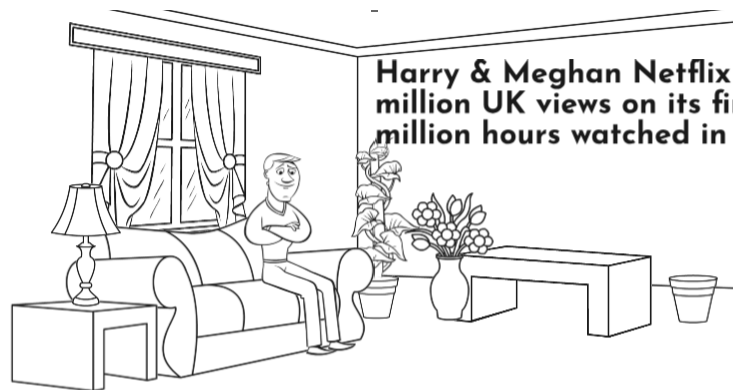

When you were a kid, you laughed at cartoons. After you grew up (really?), you smiled at political & economic cartoons in newspapers. Then newspapers went extinct. Now you watch endless in TV channels or web sites. When you go company parties, there is no jokes to say it loud or share something funny! Yes, you do sincerely forward funny ones in Instagram to your friends but sometimes you must think it twice. Why am I forwarding these while no one is sending me anything?

Here comes 'Humor from news' Channel. Weekly video release in You Tube and every possible social media. Yes, I do take breaks and watch the ocean endlessly!

Is it just watching funny news? No, I do add a content on 'word for the week.' So, you can pretend that you learn something new this week. Like everyone, you may not remember the word after few days. Use it or lose it, policy works here!

For 2022, it was a unique year. Corona is finally out, but people may still scare you about its revisit soon! You took a vacation and able to talk to your friends without face masks. Yes, you turned back when someone sneezed then it was all okay!

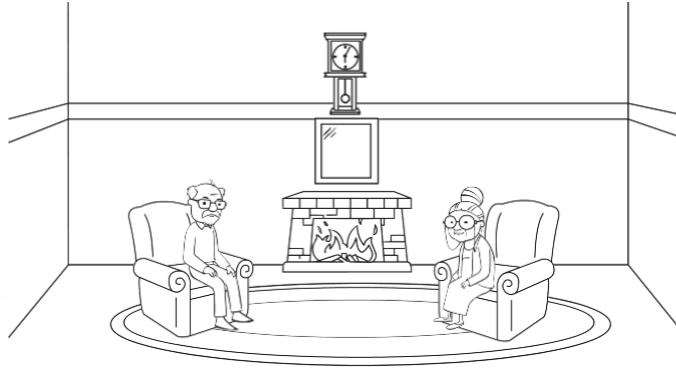

This book is the visual slides from my video content, published every week in 2022. Twitter, Elon, Melania, Cruise-ships, etc., provided enough material content. You already know the news; I am not a news maker. But I add some humor to that news or events. My goal is to make the readers smile. Be prepared!
